

# School of Architecture, Design and Planning (Denmark)

## Institutional Information (Last update at: 06/06/2018)

<b>School/Department name (Native language)</b>	School of Architecture, Design and Planning
<b>AESOP reg Number</b>	F-045-01
<b>AESOP Member Status</b>	Full Member
<b>University</b>	Aalborg University
<b>Address</b>	Aalborg University School of Architecture, Design and Planning Rendsburggade 14 9000 Aalborg Denmark
<b>Telephone</b>	+45 9940 8405
<b>Fax</b>	+45 9940 9956
<b>Web site</b>	<a href="http://www.sadp.aau.dk">www.sadp.aau.dk</a>

## Contact persons

### Head of School / Department

<b>Name</b>	Associate Professor Michael Tophøj Sørensen
<b>Email</b>	<a href="mailto:tphoej@land.aau.dk">tphoej@land.aau.dk</a>
<b>Telephone / Fax</b>	unavailable /

### AESOP Contact person

<b>Name</b>	Dr. Daniel Galland
<b>Email</b>	<a href="mailto:dgalland@plan.aau.dk">dgalland@plan.aau.dk</a>
<b>Telephone / Fax</b>	004599408282 /

## School Information

<b>Full time academic staff members</b>
<b>Part time staff members</b>
<b>Staff members engaged in research</b>
<b>Staff members engaged in professional activities</b>

## Degree Programmes and Educational Provision

### (Post)Graduate/masters or second cycle degree(s) offered at School/department

#### MSc in Land Management

**Number of years normally used to complete this degree(FT)**

2

**Part time option**

No

**Delivery mode**

On campus

**Number of ECTS**

120

**Teaching languages**

English

**Specialisation within in this Degree/the curriculum**

**The degree requires an assessed period of work in practice**

Yes Traineeship (optional), usually 3-4 months

**Programme accreditation by a professional body/other institution**

Danish Ministry of Education

**This is an Erasmus mundus programme**

No

**Curriculum/approach description**

The MSc in Land Management (LM) combines theories and methodologies from social and political science with theories of planning, property economics and planning legislation. The programme offers a complex, interdisciplinary, and solution-oriented approach in dealing with land management and spatial development issues.

As such, the aim of the programme is to provide knowledge and competence in dealing with land management and spatial planning issues, building adequate land administration systems as well as spatial governance as an infrastructure to implement land-related policies and land management strategies.

The academic structure and content of the MSc in Land Management can be accessed here:

<http://www.en.aau.dk/education/master/surveying-planning-land-management-msc-in-tech/specialisations/land-management/academic-content/>

For more information please contact Daniel Galland: [dgalland@plan.aau.dk](mailto:dgalland@plan.aau.dk)

#### MSc in Mobilities and Urban Studies

**Number of years normally used to complete this degree(FT)**

2

**Part time option**

No

**Delivery mode**

On campus

## MSc in Mobilities and Urban Studies

**Teaching languages** English

**Specialisation within in this Degree/the curriculum**

**The degree requires an assessed period of work in practice** Yes Optional internship (3-4 months)

**Programme accreditation by a professional body/other institution**

**This is an Erasmus mundus programme** No

**Curriculum/approach description**

The MSc in Mobilities & Urban Studies offers a leading and international oriented academic education focused on mobility – one of few in fact. Mobilities & Urban Studies is a new master's specialization under the School of Architecture, Design & Planning. It is aimed for students motivated to gain the technical skills associated with engineering as well as the theoretical based reflection of social science to understand, design or plan mobility in and around cities – thus to become a “reflecting technologist” as we like to call it. The programme aims at educating students for a new, cross-disciplinary mobility-profession that can contribute to handling the growing challenges facing society, businesses and individuals in relation to the development within mobilities.

The academic content of this MSc can be accessed here:

## Urban Planning and Management

**Number of years normally used to complete this degree(FT)** 2

**Part time option** No

**Delivery mode** On campus

**Number of ECTS** 120

**Teaching languages** English

**Specialisation within in this Degree/the curriculum**

**The degree requires an assessed period of work in practice** No

**Programme accreditation by a professional body/other institution** Danish Ministry of Education

**Curriculum/approach  
description**

The Master's Programme in Urban Planning and Management at Aalborg University enables candidates to understand and cope with the challenges of urban development in the 21st century through a unique integration of engineering and social science. Managing the challenges of urban policy and planning in the global era requires an interdisciplinary approach that combines technical, social, economic, and environmental knowledge. The future development of cities and urban regions requires urban policy makers and planners with an understanding of global development trends as well as of local-regional contexts and identities. It takes imagination and creativity as well as solid socio-technical knowledge and skill to envision, plan, and manage urban transformations that underpin and support goals of economic, social, democratic and ecological development.
