Specialisation within in this Degree/the curriculum	no
The degree requires an assessed period of work in practice	No
Programme accreditation by a professional body/other institution	Czech Chamber of Architects
Curriculum/approach description	<p>The programme was introduced in 2010, as the only independent planning education programme in the country. It is offered as full-time, six-semester programme in Czech language, at the Faculty of Environment of the Czech University of Life Sciences in Prague.</p> <p>The profile of the graduates The graduates are prepared to work in planning departments of local and regional government. For that aim, they are prepared to undergo the Special Ability Exam for Town and Country Planning organised by the Ministry of Interior. The graduation also entitles to apply for the accreditation of the Czech Chamber of Architects for the branch of town and country planning, as a “congenial education”. Most graduates follow up to the master-degree study of Spatial Planning.</p> <p>The study programme The programme follows the requirement of the Czech Chamber of Architects for minimum 33% of project contact hours in the curriculum.</p>

(Post)Graduate/masters or second cycle degree(s) offered at School/department

Spatial Planning	
Number of years normally used to complete this degree(FT)	2
Part time option	No
Delivery mode	On campus
Number of ECTS	120
Teaching languages	Czech
Specialisation within in this Degree/the curriculum	yes
The degree requires an assessed period of work in practice	Yes 3 weeks

Programme accreditation by a professional body/other institution

Czech Chamber of Architects

This is an Erasmus mundus programme

No

Curriculum/approach description

The programme was introduced in 2016, as the follow-up planning education for the graduates from the bachelor study of the Town and Country Planning programme but also for graduates from other programmes, namely geography, building engineering, economics and public administration. It is offered as full-time, four-semester programme in Czech language, at the Faculty of Environment of the Czech University of Life Sciences in Prague. The programme is delivered as three specialisations: Sustainable Urban Planning (U), Regional Planning (R), and Landscape Planning (K).
The profile of the graduates
The graduates are prepared to work as planners in government and self-government offices as well as in private plan-making businesses. The graduation also entitles to apply for the accreditation of the Czech Chamber of Architects for the branch of town and country planning, as a "full value education" (pending).
The study programme
The curriculum contains requisite courses, studios / projects with individual assignments and requisite optional courses following the three branches. The programme follows the requirement of the Czech Chamber of Architects for minimum 33% of project contact hours in the curriculum. An internship at a planning department is another part of the curriculum.

Landscape Planning

Number of years normally used to complete this degree(FT)

2

Part time option
